Welcome to the GitHub Basics Workshop! This workshop aims to teach you the fundamentals of GitHub through an escape room-style game. Each room will cover a different GitHub concept. Complete the tasks in each room to unlock the next one. Good luck!

Overview of Rooms

1. [Room 1: Forking and Cloning a Repository]({{< relref "activity-1.md" >}})
2. [Room 2: Creating and Committing Changes]({{< relref "activity-2.md" >}})
3. [Room 3: Pushing Changes and Creating Pull Requests]({{< relref "activity-3.md" >}})
4. [Room 4: Reviewing and Merging Pull Requests]({{< relref "activity-4.md" >}})
5. [Room 5: Handling Merge Conflicts]({{< relref "activity-5.md" >}})
6. [Room 6: Using GitHub Issues for Collaboration]({{< relref "activity-6.md" >}})
7. [Room 7: Leveraging GitHub Actions for Automation]({{< relref "activity-7.md" >}})
8. [Room 8: Exploring GitHub Projects for Project Management]({{< relref "activity-8.md" >}})
9. [Room 9: Securing Your Code with GitHub Security Features]({{< relref "activity-9.md" >}})
10. [Room 10: Utilizing GitHub Pages for Hosting]({{< relref "activity-10.md" >}})
